

IMPORTANT ANNOUNCEMENT!

Dear Vendor:

We have been asked by Robert A. Franco at Source of Title to forward you this important announcement regarding their directory. Because we regularly use the directory to find our vendors, maintaining its integrity is important to us. Please take a moment to read this message from Robert.

Thank you!

A message from Source of Title:

Our directory has grown to over 6,600 companies and is searched an average of 10,885 times each month. Unfortunately, many of those who have listed their company forget to edit their contact information when it changes. Several people have changed their email address, or moved, since registering. That means that potential clients are not able to reach them. And, we often cannot contact them to remind them to make the appropriate changes.

I know that this has caused many businesses to miss an important contact that could have resulted in a new client for them. Several times each month, I am contacted by a client to inform me that they tried to reach a company in our directory but the email bounced, or the phone number was no longer correct. Many clients use our directory to locate abstractors and other vendors, but if the information they listed is no longer accurate the business will go elsewhere.

So, please take a moment to log-in to Source of Title (www.sourceoftitle.com) and click on "My Company" in the left hand column to verify the accuracy of your contact information. You will need to log in with the email address you used when you registered the company—if you have forgotten your email address or password, please email us at info@sourceoftitle.com, or call us at 419-524-5538. We can help you get your listing back in order.

If you don't have a directory listing, you can add one for FREE. However, duplicate listings are deleted. So, if someone else has listed your company, but perhaps they are no longer there, contact us to make the necessary changes and to transfer the listing to your account. If you create a new listing, and you don't get a confirmation email within a few days that it has been approved, you should contact us to find out why.

Keeping the directory information current extremely important! Not only does it ensure that people can reach you, but it also makes the directory more useful for your potential clients and ensures that it remains the best place to find new vendors—where your listing can be found. We are here to help you—feel free to email or call us anytime to verify that you aren't missing that important contact from a new client.

Kind regards,

Robert A. Franco
President
